## The #1 Brand Choice For Culinary Professionals

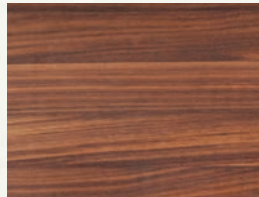

John Boos & Co. stands with strength built on a block of American history. The well recognized gourmet Boos Block® brand has become significant to the heritage and reputation. Having adapted to market changes through the years, the company continues to grow in its service to the gourmet, foodservice, residential, supermarket, and industrial markets.

### Buyers Guide Information

#### Edge Grain

Made with 1.75" wide strips that are as long as the butcher block glued together with the quarter sawn face or edge grain up.

#### End Grain

Made up of many little squares of wood cut and stood on "end".

#### Varnique Finish

A smooth semi-gloss finish, this type of finish is used for aesthetic purposes or for general food preparation tasks, including rolling dough, but you do not wish to cut upon it directly for it will damage the varnique finish. This finish requires low maintenance and can be easily cleaned with mild soap and warm water and will not need re-finished or re-oiled. Varnique is also more resistant to water spotting and staining. If varnique surface is cut, it will need to be resealed.

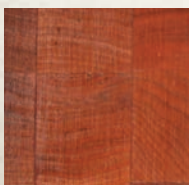

#### Natural Oil Finish

A natural oil finish, this type of finish is used as a cutting surface and is food-safe. The natural oil finish seals and protects the surface of the wood and unlike the varnique finish, can be cut directly upon the surface. It is recommended to re-oil the wood surface every 3-4 weeks. This maintenance keeps the butcher block from drying out and helps preserve the block and extend its life over time. Natural oil finishes can easily be sanded and re-oiled for a like-new appearance.

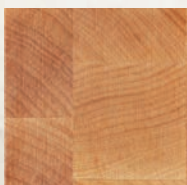

#### Wood Species

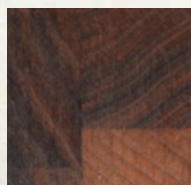

American  
Cherry

Northern Hard  
Rock Maple

American  
Black Walnut

## **Chef-Lite Essential Series**

### **1/4" Thick - Reversible**

Light, durable and easy to clean, it's making the cut with serious cooks.

Chefs who prefer the warmth and characteristics of natural wood now have a lighter, alternative choice. Chef-Lite cutting boards are made of natural wood. That means they're easy on the environment- and your valuable knives.

The surface won't harbor bacteria. Just wipe clean with soap and water, or toss it in the dishwasher. Strong yet thin, it's easy to store.

Innovative. Clean. Natural. Long lasting. They're just a few of the reasons why Chef-Lite is making the cut with the most serious cooks. Available in multiple sizes.

# Care & Maintenance

**BOOS**  
BlockS<sup>®</sup>  
BOARD CREAM

NATURAL MOISTURIZER FOR  
ALL TYPES OF WOOD

## Boos Board Cream With BEESWAX

### Used On Penetrating Oil Finish Products

This all natural unbleached beeswax and food grade mineral oil formula not only enhances the beauty of your wood products with color and sleek appeal, it also provides a finish that enhances the longevity. Frequency of application is less than standard mineral oil. Used regularly, Boos Block® Board Cream will replenish the moisture lost from repeated washings, keeping your butcher blocks, cutting boards, and utensils from drying, bleaching, and cracking. Sold in case lots of (12) - 5 oz. tubes. Model (BWC-12)

## Boos Mystery Oil

### Used On Penetrating Oil Finish Products

- Condition and protect your Boos Cutting Boards And Butcher Blocks with the same high quality penetrating oil that is used in John Boos factory. Recommended for use every 3-4 weeks. Food Safe. Boos Mystery Oil is a special combination of pure mineral oil and raw linseed oil, orange scented.
- 16 Oz. Bottles Available In The Following Case Packs Only:
  - 3 Pack - Model (MYS-3)
  - 12 Pack - Model (MYS-12)
- 2 Oz. Bottles Available In The Following Case Packs Only:
  - 10 Pack - Model (MYS2-10)
  - 100 Pack - Model (MYS2-100)

To refinish your Boos Cutting Board or Butcher Block, sand with the wood grain and oil.

## Boos EZ-DO

### Used On Varnique Finish Products

EZ-DO is a polyurethane gel that is a perfect match for varnique finish butcher block products. It can also be used to convert a penetrating oil finish top to a varnique finish. Seals and protects wood surfaces in one easy step. Makes repairs and fabrication a fool-proof operation. Easy to apply and fast drying. Water and alcohol resistant. Non-toxic, lead free. Self leveling, no runs, no lap marks. Sold in case lots only.

- Half Pints: 12 per case - Model (EZ-8C)  
 Pints: 6 per case - Model (EZ-16C)  
 Quarts: 4 per case - Model (EZ-32C)

## Limited Time Warranty

The only warranty, expressed or implied, is a one year guarantee against defect in workmanship and material.

This warranty does not apply to damages which may result from neglect, accidental or intentional damage, damage or wear to any swivel mechanism, normal wear and tear, misuse of product, unauthorized repair, exposure to extremes in temperature and humidity, and alteration or abuse of the product. Wood products ordered “unfinished” do not come with a warranty.

Repairs or replacement under this limited warranty will be made through an authorized John Boos & Co. distributor, if possible the same dealer/distributor from which the product was purchased. Should the dealer or factory representative find return of the product to the factory necessary, all packing and shipping costs will be the responsibility of the customer. If a dealer/distributor is not available, contact the Customer Service Department at John Boos & Co. 3601 S. Banker St, Effingham, IL 62401 for the name and location of the nearest authorized distributor.

Factory obligation under this warranty, is limited, at the option of John Boos & Co. to repair or replacement of the product (or one of equal type and quality if the product is no longer available), within 90 days after receipt of written recommendation from the dealer, provided none of the above exceptions are evident. John Boos & Co. shall not be liable for any loss or damage arising from use, or for consequential damages. This warranty gives certain legal rights and there may be other rights that vary from state to state.
